

ARRIVING AT SHANDS AT UF

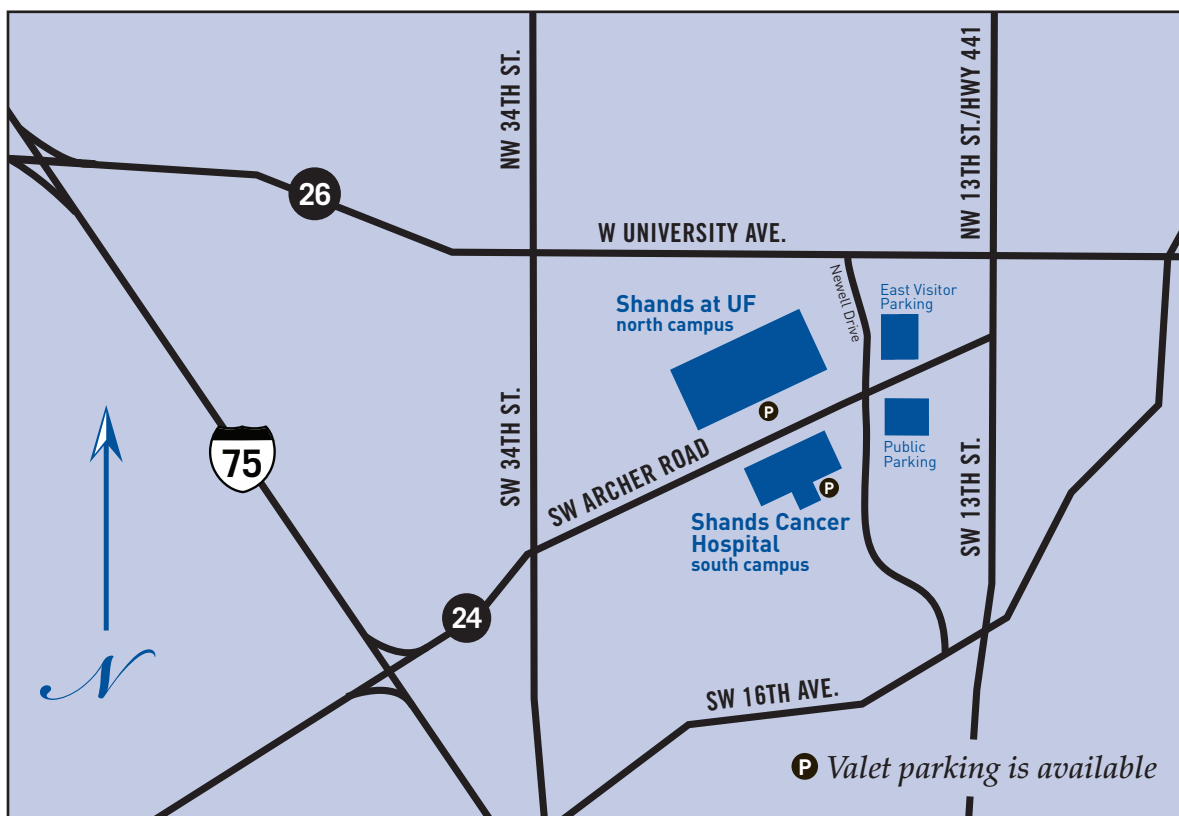

INFORMATION ABOUT STROKE FOR PATIENTS AND FAMILIES

Where will my family member be admitted?

Some patients who are treated for stroke will first be evaluated in the Critical Care Center (emergency room) which is located on the South Campus. Surface parking is available in front of the hospital and valet parking is available in front of the Critical Care Center entrance.

Patients who are hospitalized may be admitted to either the Neuro Intensive Care Unit which is located on the 8th floor or to Unit 10-5 which is located on the 10th floor. Both units are located on the North Campus. Park in the East Garage or at valet parking at the Main Entrance. Take the Patient Elevators up to the unit.

Call 352-265-0111 and ask the operator for your family member's room number, directions and other patient information. Additionally, there are Welcome Centers at the main entrances.

Where Can I Stay in Gainesville?

Many local hotels and motels offer discounted rates for Shands patients and their families. Shands Department of Patient and Family Resources maintains a list of area hotels and motels for your convenience. Please call 352-265-0224 for a copy.
