

UF HEALTH SHANDS COMPREHENSIVE STROKE CENTER

State-of-the-art comprehensive medical, endovascular and surgical stroke care.

UF Health Shands Comprehensive Stroke Center, nationally certified by The Joint Commission as a comprehensive stroke center, is home to a team of specially trained physicians, including five vascular neurologists and three cerebrovascular/endovascular neurosurgeons who are on call 24 hours a day, seven days a week to provide immediate expert care.

State-of-the-art advanced imaging:

- ▶ Catheter angiography
- ▶ Carotid duplex ultrasound
- ▶ CT angiography on a 320-slice scanner
- ▶ MRI angiography
- ▶ Transcranial Doppler
- ▶ Transesophageal echocardiography
- ▶ CT perfusion/MR perfusion

Available interventions for ischemic strokes:

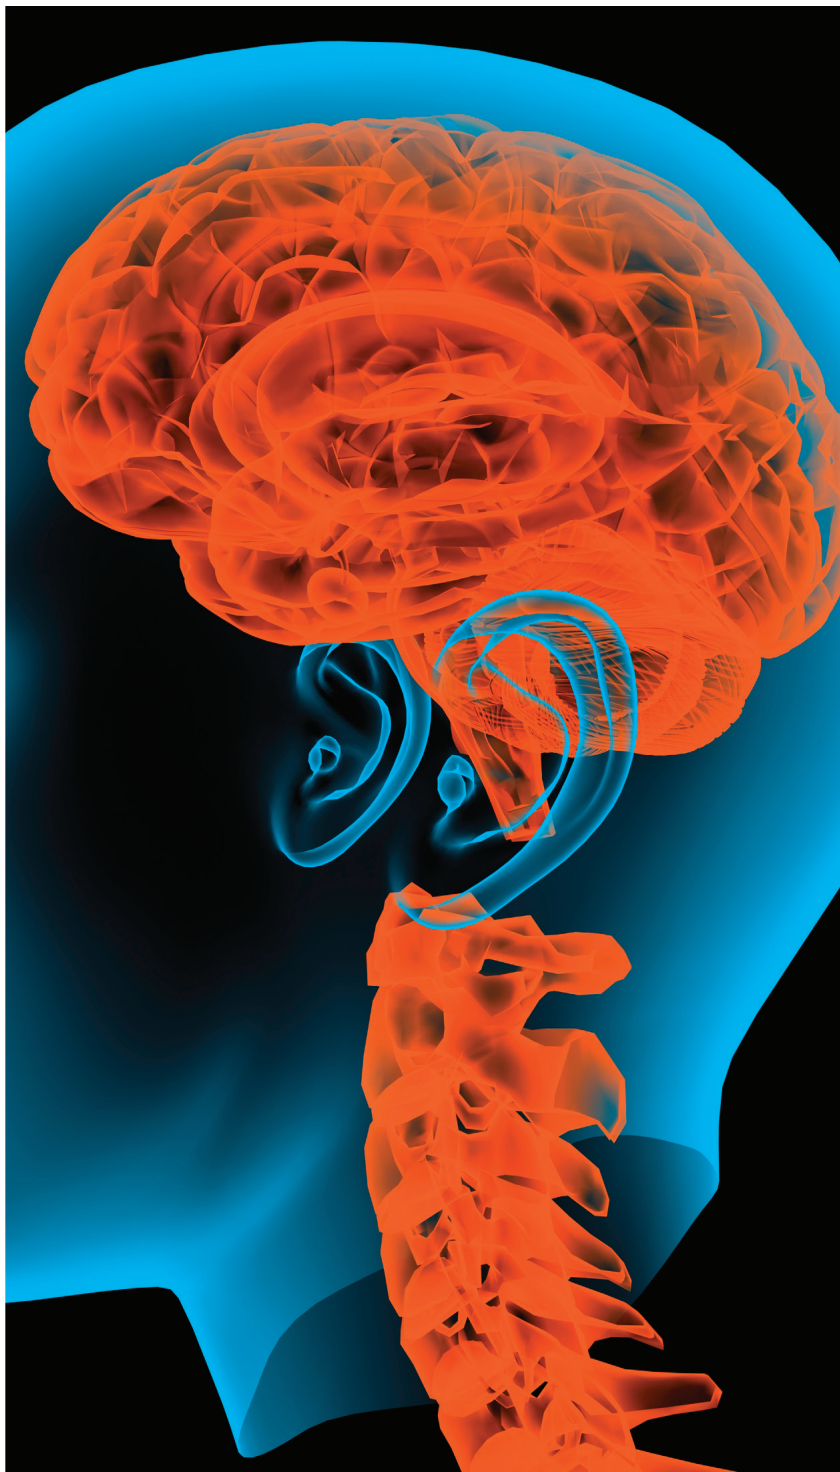

- ▶ IV tPA
- ▶ IA tPA
- ▶ Endovascular microcatheter suction aspiration
- ▶ Endovascular transcatheter stent receivers
- ▶ Hemicraniectomy
- ▶ Carotid endarterectomy
- ▶ Carotid stenting and angioplasty
- ▶ Intracranial stenting and angioplasty
- ▶ Extracranial-intracranial bypass
- ▶ Endovascular mechanical thrombectomy with clot retrievers

Available interventions for hemorrhagic strokes:

- ▶ Craniotomy
- ▶ EVD drain
- ▶ Minimally invasive endoscopic hematoma removal

Surgical and endovascular treatment specific for aneurysms:

- ▶ Craniotomy and aneurysm clipping
- ▶ Endovascular coiling
- ▶ Endovascular stenting
- ▶ Endovascular flow diversion
- ▶ Extracranial-intracranial bypass
